

## Rheumatism? Here Are Some Real Facts

How to Overcome the Tor-  
ture Without Harm-  
ful Drugs.

A legion of people have used S. S. S. and have overcome the worst forms of rheumatism.

This disease of the blood is little understood because of its strange symptoms. Scarcely two people having it exactly alike. And yet, no matter what its form or how painful and distressing, S. S. S. seems to have almost a divine influence in driving it out, releasing the nerves from pain and clearing the joints and muscles so they work without restraint. The best explanation for this happy result is the fact that in S. S. S. are certain ingredients which act as an antidote. They are nature's provision to man.

Just as the meats, fats, salts and sugars of our daily food provide us with nourishment, so does S. S. S. give to the blood the exact medicinal requirement to clear the system, drive out impurities and reconstruct the body if destructive germs have gained a foothold. Go to any drug store today and get a bottle of S. S. S. It will do you good. But be sure to refuse any and all substitutes. And if you are a stubborn case, write to the Medical Adviser, The Swift Specific Co., 106 Swift Bldg., Atlanta, Ga. This department is presided over by a physician proud of his name by virtue of his distinguished family and a foremost doctor on his own merits.

## LABOR DEPARTMENT TO AID TEACHERS

The state department of labor, in its efforts to be of the greatest services to the people of Oklahoma, has decided to take up the matter of employment of school teachers within the state, and to that end, a teachers' free employment bureau has been established and a thorough system put into effect, whereby competent and reliable teachers may be secured through the medium of the state labor department.

It is well known that many thou-

sands of dollars are spent annually by the teachers in securing positions through "paid teachers' agency" in Oklahoma, and with the co-operation of those who employ them, the department feels confident that this money can be saved and we are positive that as competent and reliable people can be secured as is possible to get through any other agency.

The labor department is assured the hearty co-operation of the state department of education, and the method used in filing the applications and the thorough manner in which the references are looked into, guarantee the reliability of persons sent out by this department.

Following is a quotation from a circular issued by a "paid teachers' agency," and is self-explanatory.

"The commission of \$15 per cent of the compensation for one calendar year is the same for all positions that are presumably permanent. If a teacher is employed as a temporary appointee for a specified time, less than one year, seven per cent is the commission charged. If such appointment leads to a permanency, the amount on which commission has been paid as a temporary appointee will be deducted from one year's income and five per cent will be charged on the remainder."

In addition to the above, a registration fee of \$2 is charged.

The commissioner, Mr. Ashton, will be pleased to receive communications from people interested.

## Some Forms of Rheumatism Curable

Rheumatism is a disease characterized by the most common forms are: Acute and Chronic Rheumatism, Rheumatic Headaches, Sciatic Rheumatism and Lumbago. All of these types can be helped absolutely by applying some good liniment that penetrates. An application of Sloan's Liniment two or three times a day to the affected part, will give instant relief. Sloan's Liniment is good for pain, and especially Rheumatic Pain, because it penetrates to the seat of the trouble, soothes the afflicted part and draws the pain. "Sloan's Liniment is all medicine." Get a 25c bottle now. Keep it handy in case of emergency.

## BERWYN SCHOOLS.

Last Saturday evening, Mrs. H. S. Suggs very delightfully entertained her daughter, Allene, who is a party in honor of her thirteenth birthday. The home was attractively decorated with jonquils and ferns.

Those present were Allene's classmates of the seventh and eighth grades.

After various contests and games were enjoyed by all, they were ushered into the dining room, where they were served dainty refreshments.

The teachers of the Berwyn public school are preparing a play and other interesting numbers for the last of school, May 21.

Baseball, basket ball and other various forms of athletics, are in vogue. Great interest along all lines is being shown.

Berwyn reports, and is very proud of her fifteen eighth grade pupils, and especially of her seven High school graduating pupils. Those in the High school graduating class are: Mamie Murry, Ruth Murry, Mae Hammett, Zeida Brook, Maudie Telford, Edwyn Suggs, Willie Wallis.

## MEAT CAUSE OF KIDNEY TROUBLE

Take Salts to Flush Kidneys if  
Back Hurts or Bladder  
Bothers.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a teaspoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

## POTASH FOUND IN ABUNDANCE IN WEST TEXAS

UNIVERSITY ISSUES AN ENCOUR-  
AGING BULLETIN — SAYS PRO-  
DUCT IS REVEALED IN TWO  
COUNTIES.

Austin, Tex., April 8.—The bureau of economic geology of the University of Texas calls attention to the announcement of negotiations with Germany in the morning papers in regard to the importation of potash salts. "Germany is our sole support," proceeds the statement "and we import about \$10,000,000 worth a year. There are no domestic sources, but it is said that Armour & company are to build works in Utah or Wyoming for the extraction of potash from a mineral known as alunite. This is a mixture of the sulphates of potash and alumina and contains from 9 to 11 per cent of potash.

The bureau of economic geology and technology, University of Texas, has now in press a bulletin on potash in the Texas perian, prepared by Dr. J. A. Udden, geologist for the bureau. It is thought that this publication can be issued within the next two weeks and copies can be obtained from the bureau free of cost. It describes a very encouraging situation in Potter and Randall counties, where a much larger amount of potash has been found in deep borings, 875 to 1,700 feet, than has been reported from any such borings anywhere in the United States.

"In these counties potash salts have been found not only in brines, but as a solid material closely associated with common salt, as is the case in Germany. The two wells in which the potash salts have been found are about thirty-five miles apart, one of them being twenty-three miles northwest of Amarillo, in Potter county, and the other in Randall county, sixteen miles southwest of Amarillo.

"It is yet too early to say whether workable beds of potash salts do occur in Texas, but from the information at hand it seems probable."

"The commercial importance of the matter is evident from the fact that during the five years ending with 1913 we imported from Germany about \$50,000,000 worth of potash salts, nearly all for fertilizing purposes."

## Effect of Great Kidney Remedy is Soon Realized

I feel it my duty to let you know what Swamp-Root did for me. I was bothered with my back for over twenty years and at times I could hardly get out of bed. I read your advertisement and decided to try Swamp-Root. Used five bottles, and it has been five years since I used it, and I have never been bothered a day since I took the last bottle of it. I am thoroughly convinced that Dr. Kilmer's Swamp-Root cured me and would recommend it to others suffering as I did.

My husband was troubled with kidney and bladder troubles, and he took your Swamp-Root and it cured him. This was about five years ago.

You may publish this letter if you choose.

Very truly yours,  
MRS. MATTIE CAMFIELD,  
R. F. D. No. 3, Gobleville, Mich.  
Subscribed and sworn to before me this 13th of July, 1909.

ARVIN W. MYERS,  
Notary Public, for Van  
Duren Co., Mich.

Letter to  
Dr. Kilmer & Co.,  
Binghamton, N. Y.

Prove What Swamp-Root Will Do For You.

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Ardmore Daily Ardmoreite. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

Yukon in Fifth Place.  
A government survey resulted in ranking the Yukon river in fifth place among the great streams of North America.

Whole Family Dependent.  
Mr. E. Williams, Hamilton, Ohio writes: "Our whole family depend on Pine-Tar-Honey." Maybe some one in your family has a severe Cold—perhaps it is the baby. The original Dr. Bell's Pine-Honey is an ever ready household remedy—it gives immediate relief. Pine-Tar-Honey penetrates the linings of the Throat and Lungs, destroys the germs, and allows Nature to act. At your druggist, 25c.

## HOW TO PREVENT ACID STOMACHS AND FOOD FERMENTATION

By a Stomach Specialist.

As a specialist who has spent many years in the study and treatment of stomach troubles, I have been forced to the conclusion that most people who complain of stomach trouble possess stomachs that are absolutely healthy and normal. The real trouble that which causes all the pain and difficulty is excessive acid in the stomach, aggravated by food fermentation. Hyperacidity irritates the delicate lining of the stomach and food fermentation causes wind which distends the stomach abnormally, causing that bloated feeling. Thus both acid and fermentation interfere with and retard the process of digestion. The stomach is usually healthy and normal, but irritated almost past endurance by these foreign elements—acid and wind. In all such cases—and they comprise over 90 per cent of all stomach difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation by taking in a little warm or cold water immediately after eating, from one to two teaspoonfuls of bisurated magnesia, which is doubtless the best and only really effective antacid and food corrective known. The acid will be neutralized and the fermentation stopped almost instantly, and your stomach will at once proceed to digest the food in a healthy, normal manner. Be sure to ask your druggist for the bisurated magnesia, as I have found other forms utterly lacking in its peculiarly valuable properties.—F. J. G. Bomar Drug Co., F. J. Ramsey, T. N. Coleman, Rexall, can supply you.

## PROTECTION AGAINST CLOTHES MOTHS

Washington, April 9.—The various substances used to keep away moths, such as tobacco, camphor, naphthalene cones or balls, tarred paper, and cedar chips have no effect if the eggs are already present in the clothes, and entomology specialists in the United States department of agriculture therefore recommend a thorough beating, shaking, and brushing of all articles likely to attract moths, before they are laid away for the summer. The brushing of garments is especially important in order to remove eggs which may have escaped notice. If the articles are quite free from eggs or larvae when laid away, the odor from the various repellents already mentioned or from cedar chests and wardrobes will keep the moths away. This odor, however, lessens with age, so that the protection it affords is greatly decreased after a few years. For this reason when furs and other valuable garments are wrapped in tarred paper or placed in sacks of tarred paper these containers should be renewed every year or two.

In general moths are likely to affect only articles which are put away and left undisturbed for some little time. Apartments and closets that are frequently aired and swept are not apt to be seriously affected. In fact airing and sunlight are probably the best as well as the oldest remedies. Where circumstances demand that the articles be put away, however, a convenient and effective device is to place them in large pasteboard boxes such as tailors use and gum a strip of wrapping paper around the edge so as to seal up the box completely and leave no cracks. If the garments have been thoroughly cleaned before being placed in these boxes, no additional protection is necessary and there is none of the objectionable odor which is characteristic of so many moth repellants.

For valuable articles the safest plan is to place them in cold storage. Recent experiments have shown that the larvae of the clothes moth will resist for a long time low temperatures if these are uniform, but that the alteration of low and high temperatures quickly results in death. It is recommended therefore that storage companies submit their goods to two or three changes, varying the temperature from about 18 degrees F. to 40 or 50 degrees Fahrenheit. After this preliminary treatment, they should be kept permanent at about 40 degrees Fahrenheit. Any lower temperature is needless expense.

A Cure for Sour Stomach.  
Mrs. Wm. M. Thompson, of Battle Creek, Mich., writes: "I have been troubled with indigestion, sour stomach and bad breath. After taking two bottles of Chamberlain's Tablets I am well. These tablets are splendid—none better." For sale by all dealers.

The spring poet instead of the yaller-legged chicken is the real harbinger of spring.

Stomach Trouble Cured.  
Mrs. H. G. Cleveland, Arnold, Pa., writes: "For some time I suffered from stomach trouble. I would have sour stomach and feel bloated after eating. Nothing benefited me until I got Chamberlain's Tablets. After taking two bottles of them I was cured." For sale by all dealers.

## Notice to the Public!

...Avoid Arguments and Rejections...

On and after Monday, April 5th, 1915, the following rule will be strictly enforced by all three picture shows in Ardmore:

All children between the ages of 5 and 12 years must have 5-cent tickets. Children over 12 years must pay 10 cents. If not holding tickets as specified, they will be refused admission to our theatres.

MAJESTIC THEATRE,  
McIntyre & Cox.

ROYAL THEATRE,  
Harry Lowenstein.

## COMMISSION TO HURRY CAPITOL CONSTRUCTION

Oklahoma City, April 8.—A meeting of the state capitol commission was held today and will continue tomorrow. It is the desire of Governor Williams and members of the commission recently appointed by him that the construction be pushed as rapidly as may be to the end that the building be ready if possible for the 1917 meeting of the legislature. Members of the unofficial commission were here to the number of six, only one being absent.

Joseph Huchins Jr. of this city was elected chairman of the commission, H. W. Gibson of Muskogee, vice chairman, and E. S. Vaughn of this city, secretary. Other members are Tom Hale of McAlester, E. K. Gaylord and F. M. Pirtle of Oklahoma City and S. W. Hogan of Cashion. Before this meeting shall adjourn it is likely that steps will be taken to expedite the capitol construction.

The seven unofficial members of the commission are leading business men in their sections of the state and serve without pay, having been urged by Governor Williams to accept service in behalf of the state. Three of them are republicans.

## SWISH! CORNS GONE! WE USE "GETS-IT"

2 Seconds, 2 Drops — Corns Vanish!  
For everybody with corns, there is in every drug store in the land one of the real wonders of the world, and that's "GETS-IT" for corns! It's the first and only corn cure ever known that removes any and every

"Some Foxy Trot, M'amselle. What? Corns Goe? Yes, I Used 'GETS-IT'."

corn or callous without fail, without fussing with thick bandages, toe harnesses, corn-swelling salves, irritating ointments. It's applied in 2 seconds—bing, bing—2 drops, the work is done, the corn shrivels up, your corn agony ends and the corn leaves forever! All the limping, the pains that dart to your heart's core, the crucifixion of having to wear shoes over screaming corns, the danger of blood poison from making them bleed by using knives, razors and scissors—are gone at last! "GETS-IT" is the new way, the sure, simple, painless way. Try it for corns, callouses, warts and bunions.

"GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.

## MAN TAKES HIS OWN MEDICINE IS AN OPTIMIST

He has absolute faith in his medicine, he knows when he takes it for certain ailments he gets relief. People who take Dr. King's New Discovery for an irritating Cold, are optimists—they know this cough remedy will penetrate the linings of the throat, kill the germs and open the way for Nature to act. You can't destroy a Cold by superficial treatment—you must go to the cause of the trouble. Be an optimist. Get a bottle of Dr. King's New Discovery today.

The man who advertises his wares is the man who gets more than his share of business.
